

Setting up Taco Bell's Sunday grand opening

Taco Bell staff is making a run for the border, setting up everything for the inaugural "Fiesta" on Sunday, September 1. General Manager Russel Harms and his staff are constantly "checking things out" to make sure the whole operation will be running smoothly at the opening. More importantly, they have to make sure that the Fiesta Tacos, the Fiesta Tostadas and the other tasty items on the Fiesta Menu are of top quality. And as NEWS photographer found out while visiting Taco Bell, it wasn't all work at the Mexican fast food restaurant, it was also "snack-time" for the staffers. "We will be only using the best ingredients to make our tacos," Taco Bell General Manager Harms told THE NEWS. "Fresh shredded lettuce, cheddar cheese and seasoned beef. The Fiesta Menu will have something to offer to every customer." NEWS photo above depicts Taco Bell G.M. Russel Harms with his assistants and NEWS photo at left shows the restaurant, situated on the Sasaki Road.
